

SYMBIO ORGANIC SSD GRANULAR FERTILISERS WITH ADDED HUMATES

Benefits

- ✓ *High performance plant and soil nutrients*
- ✓ *Encourages root and shoot development*
- ✓ *Helps reduce ambient condition and environmental plant stress*
- ✓ *Excellent microbial biostimulant and chelating agents*
- ✓ *Low salt index. Ideal for use with high conductivity water and soils*

SYMBIO ORGANIC SSD GRANULAR FERTILISERS are nitrogenous fertilisers with humates and organic nutrients derived from animal origin i.e. Hoof and horn 10% & blood meal 2.5%.

SYMBIO SSD FERTILISERS may be applied through all conventional spreading equipment.

MODES OF ACTION The humates and organic nutrients in Symbio SSD fertilisers feed the bacteria and fungi that form the base of the soil food web, promoting plant health and vigour.

THIS ENCOURAGES NUTRIENT RETENTION, promotion of perennial grasses and thatch degradation. They will also improve soil friability for increased root development and faster percolation.

THE INORGANIC CONTENT provides immediate nitrogen release, the organic content provides slow release nitrogen for up to 8 weeks

SYMBIO SSD FERTILISERS promote root and shoot development and help the plant combat stress.

ADDED HUMATES are excellent chelating agents making the nutrients more available to the grass.

SYMBIO SSD 8.0.0 + 2.5% Fe + 0.5% Mg contains magnesium and iron to promote and improve turf colour. Recommended for use in the spring and summer.

SYMBIO SSD 8.0.6 + 1.1% Fe + 0.5% Mg contains magnesium and iron to promote and improve turf colour, along with a seaweed extract to act as a turf tonic and microbial biostimulant. Excellent for use on all closely mown sports turf. Recommended for use in the spring and summer.

SYMBIO SSD 8.0.0 + 0.5% Mg, Iron free. Recommended for use in the spring and summer.

SYMBIO SSD POTASH PLUS 2.0.10 + 0.7% Mg may be used all year, but is especially effective from autumn to early Spring to maintain potassium levels during slow growth and periods of high rainfall.

APPLICATION

- Symbio SSD 8.0.0 + 2.5% Fe + 0.5% Mg, 70g per m²
- Symbio SSD 8.0.6 + 1.1% Fe + 0.5% Mg 70g per m²
- Symbio SSD 8.0.0 + 0.5% Mg, Iron free 70g per m²
- Symbio SSD 2.0.10 + 0.7% Mg Potash Plus 50g per m²

HEALTH AND SAFETY Harmful if swallowed. Avoid inhalation and contact with eyes and skin, do not eat or drink when applying products and wash hands and exposed skin after use. Wear appropriate protective clothing for the mode of application.
