

# SYMBIO SUPA YUCCA

## Benefits

- ✓ *Symbio Supa Yucca breaks down the waxy coating that prevents water from entering the plant in the same way as conventional wetting agents*
- ✓ *Symbio Supa Yucca is a sugar based surfactant that also stimulates soil microbes and amplifies the effect of your programme to increase the health of your soil*
- ✓ *May be tank mixed with biostimulants, liquid fertilisers & trace elements*
- ✓ *Non-phytotoxic*

**SYMBIO SUPA YUCCA** liquid extract is the purified extract of the mohave yucca plant *yucca\_schidigera*, which is native to baja, california and the south western deserts of north america.

**SYMBIO SUPA YUCCA** allows water to enter the plant in the same way as conventional wetting agents. This natural sugar based surfactant also stimulates soil microbes and enhances the uptake of nutrients, whilst promoting a healthy soil profile.

### APPEARANCE

- ✓ Dark Brown Pourable Liquid
- ✓ pH 3.7 – 4.1
- ✓ Completely water soluble

**PACK SIZE: 1L ▪ 5L**

### RECOMMENDED APPLICATION

**When used as a bio-stimulant in Symbio Compost Teas** 1-2 litres per Hectare.

**When used as a stand-alone wetting agent:**  
2 litres per Hectare.

Apply at least monthly starting approximately 1 month before dry conditions or spot treat affected areas as required.

**How to Apply** Apply with water or spray mixes whenever plants are stressed due to heat, drought, compaction or hydrophobic soil conditions.

**Apply as a spray or soil drench.** Yucca may foam with agitation. Add to tank last if mixing products. After mixing with water, apply within 48 hours.

Check with manufacturer before mixing with pesticides. Shelf Life 18 months, avoid excessive heat and freezing, store in a cool dry place.

### Hazard

Causes serious eye irritation.

### Precautionary

Wash contaminated skin thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection.

**IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention

**WARNING**
