

# Sanit

**Aromatic biological liquid, which degreases and unclogs surfaces and drains, neutralising bad smells.**

## Action

SYMBIO SANIT is **not** a solvent or bleach. The bacteria become activated in water, oxidise organic matter removing it from its support. This break down prevents anaerobic fermentation (the source of bad smells). The cleaning effect of the enzymes ensures the digestion and breakdown of fats and greases, uric acids crystals, animal waste and organic matter. Sanit also reduces and oxidises malodorous gases preventing bad smells.

## Application

SYMBIO SANIT can be used neat or diluted at various concentrations to 1:100.

## Composition

Blue lightly perfumed liquid, containing non-pathogenic bacteria, enzymes and biodegradable surfactants. Sanit enhances the action of septic tanks, vats and wastewater treatment stations.

## Safety

SYMBIO SANIT contains non-pathogenic microorganisms that comply with EC EFB Grade 1. This class contains microorganisms which have never been described as causal agents in human illness and which pose no threat to the environment.

Users should avoid excessive skin contact and inhalation of spray. Rinse from eyes with water. If swallowed, rinse mouth but do not drink water.

If irritation occurs and persists seek medical advice. Keep out of reach of children. See health and safety sheet for full details.

## Examples Of Usage and dilutions chart

Dilution treatment		Application
Undiluted	Cleaning urinals, toilets and bidets. Cleaning drains and grease traps and maintaining cess pits	Spray 1-2 times per week when usage is light. Pour 200ml into drain or trap followed by 50-100 ml per week maintenance dosage.
Undiluted- 1:10	Food body waste and organic stains on carpets, fabric, wood etc.	Removes solid matter. Spray onto dirty surface, rub with damp cloth, leave 20 mins and rub out stains. For heavily soiled carpets allow to dry and brush or vacuum out residue.
1:10 - 1:100	Cleaning baths, basins, and showers. Removing grease, finger marks and stains from walls, tiles fabrics.	Dilute and spray or wipe onto area to be cleaned. For heavily stained surfaces leave 2-5 mins before wiping off.
1:40 - 1:50	Deodorant and cleaning spray for toilets W/Cs animal bedding /litter trays.	Dilute and spray over all surfaces as required.

## Notes

Do not mix with chemical cleaners.  
Use within 15 days of mixing with water.  
Store in dry atmosphere between 5-40° C.

- Packaging 1.0 litre, 5.0 litres, 30.0 litres
