

Descale

Descalcs, degreases and deodorizes urinal, shower, basins and toilet drains

Action

SYMBIO DESCALC works continuously in the pipes and U bends of your drainage system, to maintain a clean environment.

It uses naturally occurring microorganisms to degrade the decaying organic matter, which causes the noxious odours in your drainage system.

SYMBIO DESCALC helps activate septic tanks and sewerage treatment systems.

Once a week application

Urinals, baths, showers & basins.

To maintain a clean, odour free and scale free drainage system dose once a week preferably when usage is light.

Apply 20-30 gms i.e. 1 tablespoon to the drain at the end of the day. To clear partially blocked pipes apply daily for the first 3-4 days.

Avoid using strong bleaches and disinfectants

For best results clean your toilets with Symbio Superclean and Symbio Odoreat or Symbio Fresh. Do not use urinal blocks

Composition

Powder containing saprophytic, acidophilic microorganisms on a mineral support, which have been specially selected to break down scale, organic waste and grease. Ph2-2.5 due to sulphamic acid base.

Safety

The microorganisms in Descale conform to EC EFB Class1. This class contains microorganisms which have never been described as causal agents in human illness and which pose no threat to the environment.

IRRITANT.

Users should wear protective gloves. Avoid inhalation.

Wash from skin/bathe eyes with water.

Seek medical attention if irritation persists. Keep out of reach of children. See health and safety sheet for full details.

Notes

Store away from heat and humidity. Keep out of the reach of children.

To descale metal, tile and ceramic surfaces use Symbio Detacid
