

Liquid Drain Clean

Unblocks and maintains clear odour free drains and sewers. Degrades organic matter, fats, greases and thus reduces odours. Improves effluent quality.

Liquid form.

Action

SYMBIO LIQUID DRAIN CLEAN digests and degrades fats due to the action of selected microorganisms. This digestion prevents the fermentation of anaerobes, the source of bad odours and pollutants, and so has a deodorising effect. The microorganisms also enhance the functioning of sewage treatment plants.

Application

The required dose is poured down sinks, on grease trap sites, or where waste products leave sumps, either manually or by using a peristaltic pump.

Composition

A clear brown liquid containing selected non-pathogenic microorganisms. The product is biodegradable and has a pH of 5.5.

Safety

- Users should wear gloves
- Wash hands after use
- If swallowed, rinse mouth but do not drink water and seek medical attention
- Wash from eyes with water
- If irritation occurs and persists, seek medical advice
- Keep out of reach of children
- See health and safety data sheet for full details

Examples Of Usage and dilutions chart

Meals per day	Starter	treatment
	Once a day for 3 days week	dose once a
0 to 200	0.5 to 1 litre	0.5 to 1 litre
200 to 500	1 to 1.5 litres	1 to 1.5 litres
500 to 750	1.5 to 2 litres	1.5 to 2 litres
750 to 1000	2 to 2.5 litres	2 to 2.5 litres
1000 to 2000	3 to 3.5 litres	3 to 3.5 litres
2000 to 5000	4 to 4.5 litres	4 to 4.5 litres
5000 to 10000	6 to 8 litres	6 to 8 litres

Notes

The maintenance dose should be applied once every 7 days, except on short drain lines (i.e. less than 20m) when it should be split and applied 2 - 3 times per week.

N.B. If the grease trap is extremely blocked, the problem will have to be physically cleaned out before biological treatment can begin.

Packaging 1.0 litre, 5.0 litres, 30.0 litres
