

Odoreat

Highly concentrated odour eradicator for heavy duty use.

Action

Malodorous gases cause noxious odours. SYMBIO ODOREAT creates an electron micro action, which destroys gaseous emissions by oxidation and reduction.

The powerful action of SYMBIO ODOREAT lasts for days even weeks in many circumstances.

Application

SYMBIO ODOREAT is diluted to concentrations between 1:100 and 1:400 and poured or sprayed over the area to be treated. It can also be added to Symbio Superclean or Deepclean to thoroughly clean and deodorise in one. Odoreat will work for 3-21 days between applications.

Composition

A brown liquid containing metallic copper salts, biodegradable surfactants and concentrated perfumes. pH5-6 in concentrated form. Odoreat will not effect the biological action of septic tanks, vats, lagoons or wastewater treatment stations.

Safety

Odoreat is slightly acidic, pH5-6 in concentrated form. Users should wear protective gloves if subject to allergies, avoid excessive skin contact, rinse eyes with plenty of water. If swallowed rinse mouth out with water. Seek medical attention if irritation persists. Keep out of reach of children. See health and safety sheet for full details.

Examples Of Usage and dilutions chart

Dilution treatment		Application
1:20- 1:100	First treatment of animal wastes, muck spreading, blocked drains, industrial effluent.	Dilute and pour direct onto muck or into drains. For pig slurry and industrial effluent use 1-2 litre per 10m cubed of slurry/effluent.
1:150- 1:300	Garbage areas, dustbins, pig pens. Deepclean toilets and WC's.	Dilute and spray or sprinkle over area to be treated, or add to Symbio Superclean or Deepclean.
1:200	Incontinence smells, nursing homes and hospitals. Maintenance treatment of animal pens, drains, garbage areas, industrial and agricultural effluent.	Mix Odoreat into cleaning solution with Symbio Superclean or Deepclean. Dilute and spray or sprinkle onto surfaces or pour into drains or effluent every 10 days as required.
1:300	Maintenance of toilets, W/C's and washrooms. Smoke, vomit and food smells in pubs, nursing homes.	Dilute and spray over surfaces or add to cleaning enamel, walls, floors, carpets etc. or spray after cleaning.

Notes

Do not overdose.

For best results remove the soiling causing the smell with Symbio cleaners.

Store in a cool dry place, above 5 degrees C. Keep out of the reach of children.

- Packaging: 1.0 litre, 5.0 litres, 30 litres, and 200 litres
