

Fresh

A mildly aromatic liquid deodorizer.

Action

Noxious odours are caused by malodorous gases. SYMBIO FRESH creates an electron micro action, which destroys gaseous emissions by oxidation and reduction.

Application

Fresh can be diluted to concentrations between 1:50 and 1:3000 and sprayed or sprinkled over the area to be treated. Fresh can also be added to Symbio Superclean or Deepclean when cleaning walls, floors and carpets. Symbio Fresh will work for 3-10 days between applications.

Composition

A liquid containing metallic salts, biodegradable surfactants and aromatic perfumes. Symbio Fresh is slightly acidic. Fresh will not affect the biological action of septic tanks, vats, lagoons or waste treatment stations.

Safety

SYMBIO FRESH is slightly acidic (pH5-6) in concentrated form. Users should avoid excessive skin contact or inhalation when spraying. Wash off skin/bathe eyes with water. If swallowed rinse mouth but do not drink. Seek medical attention if irritation persists. Keep out of reach of children. See health and safety sheet for full details.

Examples Of Usage and dilutions chart

Dilution Treatment		Application
1:50-1:200	Toilets, smokey pubs, animal bedding, stairwells.	Dilute as required and sprinkle or spray over area to be treated after cleaning. For best results add to Symbio Superclean when cleaning the effected area.
1:100-1:300	Public waiting rooms, hospitals, restaurants, shops, buses, busy offices.	
1:200-1:300	Offices, surgeries, homes, cars, coaches.	

Notes

Do not overdose.
Store in cool dry place between 5-30 degrees C out of the reach of children.
Symbio Fresh will not effect the action of enzymatic cleaners or septic tanks and effluent treatment systems.

- Packaging: 1.0 litre, 5.0 litres, 30.0 litres and 200 litres
