

50/50 SOLUBLE IRON (FeSO₄)

Harden grass against wear and provide rapid green-up

BENEFITS

- For foliar application with hand-held sprayers and field sprayers at high or low water volume
- Promotes rapid 'green-up'
- Hardens the grass against wear and enhances disease resistance
- Ideal before tournaments or when aesthetics are critical
- Soluble Granular or Chelated Iron formulations

Use before tournaments or when aesthetics are critical and at the onset of the disease season.

Do not apply in hot, dry weather or frosty conditions.

Application guide: *For best results consult your Symbio representative.
