

MYCOGRO 15.2.15 + 3.3% MgO +2% Fe

Fertiliser with soil fungi and bacteria to add life to soil

BENEFITS

- With additional thatch eating fungi and bacteria
- Fungi convert thatch, dead moss and grass clippings to humus
- Bacteria solubilise and retain nutrients
- Assists germination
- Creates the biology needed for perennial grass growth

Symbio MycoGro 15.2.15 + 3.3% MgO - Slow release Fertiliser is designed to give immediate growth with a long lasting slow release element. Ideally applied in late spring or early summer, but can applied throughout summer.

Application guide: *For best results consult your Symbio representative.
