

OIL REMOVER

The enzymes in oil remover rapidly biodegrade mineral oils into harmless constituent parts

BENEFITS

- To remove fuel, hydraulic and lubricating oils from Sports turf
- Also effective on many artificial surfaces

Oil spills are a fact of life.

SYMBIO OIL REMOVER makes you prepared for immediate action.

Enzymatic action

breaks down oil pollution on soil, grass and concrete.

Oil remover

converts hydrocarbons to basic water soluble elements and nutrients, allowing rapid reseedling and recovery of oil spills on grass. **SYMBIO OIL REMOVER** contains nutrients necessary for healthy plant regeneration.

Do not use on oil-based tarmacadam-type surfaces

Dosage

Dilute one scoop in at least 2 - 3 litres of (lukewarm if available) water (approximately 3 scoops per bucket)

If saturating soil dilute 1 scoop per 10 -20 litres of water

How to apply:

Remove excess oil with a suitable absorbent Brush Oil Remover solution into the spill
 Leave for a few minutes and brush again
 Wash away residue with a hose pipe or irrigation
 In severe cases where deeper contamination is likely, hand spike affected area and saturate sward with Oil Remover solution
 If you can smell oil in the soil after the first attempt at cleaning spike to the depth of the oil and repeat the application with more water
