

LIQUID MAGNESIUM 5% Mg

Provides readily available plant nutrients with biostimulants.

BENEFITS

- Easy to apply
- Use as a foliar feed or soil drench
- Tank mixable with biostimulants, wetting agents, Liquid Aeration

A Magnesium fertiliser solution complexed with lignosulphonates.

Symbio liquid fertilisers & trace elements are used in times of stress for rapid and effective balancing of plant nutrients. Liquid fertilisers allow you to reduce and fine tune your nutrient inputs throughout the growing season.

Magnesium

is a core component of the chlorophyll molecule and is necessary for the synthesis of amino acids, vitamins, oils and sugars.

Application guide: *For best results consult your Symbio representative.
