

SYMBIO CAVIAR 10.0.4

Benefits

- ✓ *Easy to spread organically sourced slow release fertiliser – 2-4 mm granules*
- ✓ *Manufactured from Soluble Condensed Molasses*
- ✓ *Organic Matter 45% - Fulvic Acid 25% - Amino Acids 11.5%*
- ✓ *Excellent Low Light Cool Season Fertiliser*

A 10-0-4 LOW SALT ORGANIC GRANULE

containing slow release nutrients, fulvic and humic acids and amino acids combining slow release nutrition with excellent biostimulant and soil building properties.

BENEFITS

BIOLOGICAL

- ✓ Stimulates the growth of soil microbes
- ✓ Supplies bio-carbon and other nutrients for microorganisms
- ✓ Enhances root formation
- ✓ Enhances plant nutrient uptake
- ✓ Stimulates plant growth
- ✓ Better seed germination

CHEMICAL

- ✓ Excellent chelating properties
- ✓ Increases Cation Exchange Capacity
- ✓ Releases lockup up nutrients
- ✓ pH 4.6 – 4.8
- ✓ Improves nutrient retention.
- ✓ Improves the distribution of calcium
- ✓ Reduces sodium uptake in plants

PHYSICAL

- ✓ Improves friability of heavy and clay soils.
- ✓ Improves soil structure and water infiltration.

APPLICATION

35-50g per m². Apply from early spring to late summer.

When applying to sports pitches please note that the granules may take up to 7 days to dissolve, the granules may mark clothing until fully dissolved

Precaution

IF SWALLOWED Rinse Mouth, Do not induce vomiting.
IF ON SKIN Gently wash with plenty of soap and water
IF IN EYES Rinse cautiously with water for several minutes

CONTAINS

Nitrogen (min)	10%
Phosphorus	0.3% P2O5
Potassium min	4% K2O
Sulphur:	3.6%
Manganese:	89 mg/kg
Magnesium:	0.36%
Calcium:	1.2%
Zinc:	36 mg/kg
Iron:	332 mg/kg
Boron:	0.01 %
Humic Acid:	3.8%
Fulvic Acid:	26%
Amino Acids	11.5%

PACK SIZE: 20kg • 500kg • 900kg
