

LIQUID MANGANESE 6% Mn

Provides readily available plant nutrients with biostimulants.

BENEFITS

- Easy to apply
- Use as a foliar feed or soil drench
- Tank mixable with biostimulants, wetting agents, Liquid Aeration

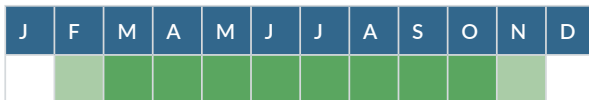

Symbio liquid fertilisers & trace elements

are used in times of stress for rapid and effective balancing of plant nutrients. Liquid fertilisers allow you to reduce and fine tune your nutrient inputs throughout the growing season.

Manganese

is used by the plant in the formation of various enzymes. It plays a key role in chlorophyll synthesis and nitrogen metabolism.

Application guide: *For best results consult your Symbio representative.

PACK SIZE:
10L

10L / ha
200 - 600L water

pH: 4.5-6

SG: 1.17-1.22
