

SYMBIO CAVIAR 10.0.4

Combines slow release nutrition with excellent biostimulant and soil building properties

BENEFITS

- Easy to spread organically sourced slow release fertiliser – 2-4 mm granules
- Manufactured from Soluble Condensed Molasses
- Organic Matter 45% - Amino Acids 11.5%
- Excellent Low Light Cool Season Fertiliser

SYMBIO CAVIAR is a 10-0-4 low salt organic granule containing slow release nutrients and amino acids.

Application guide: *For best results consult your Symbio representative.

2-4mm

35-50/m²

**PACK
SIZE:**
20kg, 500kg
900kg

Contains	
Nitrogen (min)	10%
Phosphorus	0.3% P ₂ O ₅
Potassium min	4% K ₂ O
Sulphur:	3.6%
Manganese:	89 mg/kg
Magnesium:	0.36%
Calcium:	1.2%
Zinc:	36 mg/kg
Iron:	332 mg/kg
Boron:	0.01 %
Amino Acids	11.5%

SYMBIO CAVIAR 10.0.4

Technical Information

How to apply:

- Apply from early spring to late summer
- Please note that the granules may take up to 7 days to dissolve, the granules may mark carpeting and clothing until fully dissolved

Biological benefits:

Stimulates the growth of soil microbes, supplies bio-carbon and other nutrients for microorganisms, enhances root formation, enhances plant nutrient uptake, stimulates plant growth, better seed germination

Chemical benefits:

Excellent chelating properties, increases Cation Exchange Capacity, releases locked up nutrients, pH 4.6 - 4.8, improves nutrient retention, improves the distribution of calcium, reduces sodium uptake in plants.

Physical benefits:

Improves friability of heavy and clay soils, improves soil structure and water infiltration.
